PROFILE

Frontend Engineer with 4+ years of experience working with React, Vue and TypeScript. I'm used to taking responsibility from requirements and technical decisions to the final release. I don't just follow specifications if I see a simpler or more reliable solution — I prefer to discuss it and find the best option together. I care about clean and maintainable code, but I try not to optimize too early and prefer to make technical decisions based on real data.

CORE SKILLS

Frontend: React, Next.js, Vue 3, Nuxt, TypeScript, TanStack Query, Tailwind CSS

Backend & CMS: Supabase, Payload CMS, Craft CMS, PHP

Engineering: Component architecture, API/BFF, web performance, accessibility, Vite, Turborepo

EXPERIENCE

Your Next Agency (YNA) — Frontend Engineer

Feb 2025 – Present | Amsterdam, remote

- Worked across 20+ client projects from research, estimates and technical planning through development, release and support, including direct client communication on requirements and technical trade-offs.
- Built user-facing flows for petitions, email invitations, registration, donations and e-commerce.
- Improved PageSpeed to 80+ across ~10 production sites, reduced a shared e-commerce JavaScript bundle by 4x, and modernised legacy Vue code with Composition API and TypeScript.

Pharmaceutical Cosmetic LLC — Frontend Developer

Nov 2022 – Feb 2025 | Moscow, remote

- Rebuilt the company's main e-commerce site with Nuxt and headless WordPress, replacing a slow legacy website and reducing page load times by ~3x.
- Used analytics and session recordings to see how customers used the site, then fixed UX issues and bugs based on real user behaviour.
- Created a shared design system and component library used across the company's related websites.

SELECTED PROJECT

Partij voor de Dieren — worked on a multi-site platform with ~80 subsites, taking responsibility for e-commerce and multi-step member registration. Introduced lazy-loaded JavaScript modules and Nanostores, and improved caching and database queries to reduce CMS and database load.

Embeddable Quizzes — quiz builder built with Next.js and Supabase. Users can create quizzes, map answers to results and embed them on external websites with a generated script.

LANGUAGES & EDUCATION

Languages: English B2 • German B2 • Russian native

Education: FH Dortmund — Master's Studies, Creative Audio Director (2020–2022, not completed)

Litovchin Institute of Film and TV — BA, Sound Design (2012–2017)
